WAR VESSELS ARE SOUGHT.

Representatives of Foreign Powers Find Places of Safety on Shipboard. Latest News About the War in Crete.

Canea, Island of Crete, Feb. 15.—The Christians occupied the heights surrounding the town and began to bombard Canea.

As soon as the firing commenced Prince George Berovitch, governor of Crete, with 30 recently enrolled Montenegro gendarmes, boarded the Russian man-of-war.

The Greek consul also embarked on board another vessel. The Turks from the fortress replied to the fire of the Christians.

It is reported that the fighting was attended with bloodshed. The military governor has been removed from his post. The foreign consuls also embarked on board the various vessels lying off the town of Canea. The Greek consul at Iraklion went on board the Greek warship Neaercha Mianila.

The Christians at Heraklion are also hurrying on board the ships. Fighting occurred around Halaia Saturday. After a brisk fusillade the Turks dislodged the Christians and occupied Akrotiri hills. The French consul was obliged to quit his country house at Halaia and return to his official residence at Canea.

The foreign ministers at Athens met at the French legation for the purpose of considering the situation. NEWSPAPER BURNED OUT.

The Plant of the Pittsburgh Post Guttered by the Flames.

Pittsburgh, Feb. 15.—The office of The Post on Fifth avenue was almost totally destroyed by fire, causing a loss to the paper of about \$60,000, well insured.

The only other tenant in the building was Glenshaw, the railroad ticket broker, whose loss was small.

The Commercial Gazette, next door to The Post, was in imminent danger, but good work by the firemen saved that plant, the only damage being caused by water, which flooded the cellar. The Commercial press and engine are thus, for the time being, disabled.

The paper's edition tomorrow morning will be printed at The Press office. Both The Post and The Commercial were promptly removed to the new and service of machines, presses and office of the other newspapers in the city.

The Post will be issued from the office of The Leader until a new plant can be established.

The fire which caused the trouble was a mysterious one, breaking out about 8 a. m., and had made a hue of the freight elevator shaft, getting under a big headway before the watchman discovered it. It is supposed that electric wires are responsible for the conflagration.

The flames shot up the elevator shaft from the first floor and in a very short time had communicated to the entire building, which was soon beyond hope of being saved.

On the fourth floor was the composing room, where the 16 Linotype machines were also badly damaged, and they will have to be rebuilt.

Type and other material were also a complete loss. In the editorial rooms, on the third floor, the complete files of the paper were destroyed and everything in the room drenched with water or consumed by the flames. The business office is a wreck.

The large safe broke through the floor and crashed down upon one of the printers, which was immediately under it in the basement.

Loss on the building, which belonged to the J. N. McDougall estate, will be \$25,000, well insured.

He characterized the gifts of \$11,500,000 to the University of Chicago during the last five years as the most momentous impulse given to the educational movement in the history of this country.

He said the great purpose of education was not so much to give information as it was to develop the faculties of the scholar.

He considered the primary department of our schools and colleges as the weakest part of our educational system, and urged the importance of giving more attention to the proper education of the young.

A general debate followed on a resolution looking toward the checking of the alleged tendency to larger unlearned classes, especially in larger universities. To inexperienced teachers. The resolution was finally adopted. Committees were appointed to serve during the present year.

THE INAUGURATION.

Festivities Incident to the Induction of Major McKinley into Office.

Washington, Feb. 15.—The arrangements for the inauguration of President-elect McKinley, two weeks from next Thursday, are rapidly nearing completion, and the indications are that in point of brilliancy and attractiveness, the ceremonies, the decorations and the festivities incident to inauguration week, will be more lavish than those of former years.

In the decorations of the ballroom finer results are expected than ever before. All spectacular effects will be avoided and a more artistic and harmonious arrangement of the flowers, lights and burning will be secured.

About \$12,000 will be spent by the inaugural committee in decorating the main ballroom and the private rooms set apart for the use of the presidential and vice presidential parties.

The great height of the court of the pension building, where the ball will be held, will be overcome by bunting festooned from the center of each of the three divisions of the court to the top of the second gallery.

Thousands of tiny electric fairy lamps will be used, principally to bring out in greater relief the floral designs. The president and vice president, with their families, will attend the ball.

The cost of tickets to the ball has been fixed at \$5 for each person, and \$1 extra if supper is desired.

The promenade concert will consist of six selections and the dance programs contain 23 numbers. The ball will be held on Thursday night, and in addition a series of five inaugural grand concerts will be given in the ballroom on the following Friday and Saturday.

At the first concert the Republican Glee club of Columbus, O., will sing a number of patriotic airs.
